

LOCAL SAFETY GUIDELINES **FOR ALL WINDSPORTS ON** **CHRISTCHURCH BEACHES**

These beaches are used by many people, so please...

- Show courtesy to other beach users at all times.
- Set up/break down equipment in a safe manner, well away from other beach users, Surf Clubs and Patrolled areas.
- Keep a safe distance from other beach users, as powered up sails/kites can pack a punch, and kite lines are sharp.
- Don't pass between the flags on a Surf Patrolled beach.
- No wind powered vehicle is to be used within 50 metres (2 line lengths) of a Surf Club or Patrolled area.
- The designated area for wind powered vehicles is 100 metres south of the South Brighton Surf Club, to the mouth of the Estuary.

These guidelines have been prepared by the

to aid windsports safety and access privileges.
